## SQUALLS ON THE SENATORIAL SEA

But Progress Is Made on the Tariff Measure.

PARAGRAPHS PASSED UPON

While in Most Instances They Were Disposed of With the Understanding That the Senate Might Still Return to Them, It Is Thought Little Change Will Be Made in Most of Them—Aldrich Wants Date Set for Vote.

Washington, May 22.—There were some squalls during the day on the senatorial sea, but notwithstanding, the tariff bill made progress. A number of paragraphs were passed upon and while in most instances they were disposed of with the understanding that the senate might still return to them, it is the general opinion that little, if any, change will be made in most of them.

The house rates were retained in the polished plate glass paragraph, but with the understanding that when the bill is taken up in the senate proper, it now being considered as in the committee of the whole, there probably will be some alterations. The so-called "Republican progressives" criticised the house rate as too high, while Senator Oliver, who represents the glass producing state of Pennsylvania, contended that the rate was entirely inadequate to the proper protection of the plate glass industry.

The interests considered during the day ranged all the way from mica and feldspar to automobiles. Beginning with the earthenware schedule, a number of committee recommendations were adopted. These included a marked increase on feldspar, made at the instance of Senator Bradley, and a decided reduction on gypsum. There was also a reduction in mica from the Dingley rate. Then came an interruption by Senator Culberson who made a set speech outlining the Democratic position on the tariff. He declared that real Democrats were neither protectionists nor free traders, but advocates of a revenue tariff only.

Duty on Electric Light Carbon.

Following Mr. Culberson's speech about an hour's time was devoted to the paragraph fixing a duty on electric light carbon. The Dingley law provides a rate of 90 cents per 100, while the proposed provision which was adopted, fixed 65 cents per 100 feet on high grade and 35 cents on low grade carbon. Senators La Follette and Gore contended that the effect of this amendment would be practically to double the present rate, and they charged that the change had been made in the interest of the National Carbon company, which they spoke of as a trust. Mr. Gore also asserted that there was a combination between the carbon makers and the Standard Oil company. Mr. Burton, who lives in Cleveland, O., where the carbon company is located, vigorously defended the company. In the discussion of this paragraph Senator Gore made allusions to Senator Smoot, which were generally interpreted as personal, but the Utah senator made no reply.

The finance committee's automobile schedule suggested by Senator Gallinger was accepted.

There were many sharp criticisms of one another by various senators and near the hour of adjournment Mr. Hale accused Mr. Beveridge of seeking newspaper notoriety by his

frequent speeches. The charge was denied by the Indiana senator, who said that he was merely seeking to do his duty.

There was a strong intimation that night sessions would soon be resorted to unless better progress were made. Mr. Aldrich stated that today he would ask the senate to fix a day for voting upon the tariff bill.

### ALMOST BURNED ARMS OFF

Ranchman Thus Thought to Banish Evil Spirits.

Seattle, Wash., May 22.—R. C. McIntosh, a rancher, was found in his log cabin with his hands and arms so severely burned as to require amputation. It is feared he will die.

McIntosh said he had read in the Bible of evil spirits and concluded these had been speaking to him.

To rid himself of them he put both arms into the fire. He says it was a slow wood fire in a kitchen stove and he held his arms there for a long time.

## COALITION IN THE SENATE BROKEN

Progressive Republicans and Democrats Disagree.

Washington, May 22.—It was announced that the coalition of Democratic senators and "progressive Republicans" had been broken so far as the income tax question is concerned, and that amendments on that subject would be presented by both Senators Bailey and Cummins.

Both of these amendments will provide for flat rates of tax, but they differ on some other important features, particularly the proposed tax on corporations.

It was stated also upon the highest authority that an agreement has been reached between the finance committee and the supporters of free lumber by which the duty on dressed lumber shall not be more than 50 cents a thousand above the rate fixed on rough lumber, whatever rate that may be.

### EDITOR DEE'S STATEMENT

Results in Legislators Accusing Him of Padding.

Madison, Wis., May 22.—The day's session of the senatorial investigating committee were taken up with the examination of Editor George Dee of Chippewa Falls. Dee submitted a statement covering \$150 expenses to Stephenson for space in his paper. The committee after examining the account accused Dee of "padding."

After considerable argument the witness said: "I think the old man got value received."

Dee could not remember to whom he disbursed \$200 for workers to distribute campaign literature.

At the conclusion of Dee's testimony the committee adjourned subject to the call of the chairman.

Several witnesses are expected to be called next week.

### SHEA PLACED UNDER ARREST

Labor Leader Accused of Stabbing a Woman.

New York, May 22.—Cornelius P. Shea, who, the police say, came to this city from Chicago several months ago and became involved in the local teamsters' strike, was arrested charged with stabbing a woman at his home in West Thirteenth street. The woman, who gave the name of Alice Walsh, was stabbed in a dozen places. Both she and Shea were covered with blood. Shea declined to make any statement.

Alice Walsh now is in St. Vincent's hospital. Examination by physicians showed that she had been terribly hacked with a pocketknife and that one blow had almost severed the jugular vein.

### DEPARTMENT STORE BURNED

Fire at Grand Rapids, Mich., Causes Loss of \$400,000.

Grand Rapids, Mich., May 22.—The Gilbert block, seven stories, containing the Ira M. Smith department store and scores of office suites, was practically destroyed by fire with a loss estimated at \$400,000. The south wall of the structure fell, crushing beneath it two frame residences. Half a score of people, awakened just in time, were rescued from the houses by the police and firemen.

## CRISIS IN THE CALHOUN CASE

Attorney Heney Ignores Two Restraining Orders.

TO OPEN SEALED PACKAGES

Assistant Prosecutor Announces That He Would Ask Permission of Judge Lawlor—Arguments on This Issue Deferred Until Monday—Dynamiting of Gallagher's Home Referred to by One of the Witnesses.

San Francisco, May 22.—Patrick Calhoun's trial on a bribery charge ended the most important week of its five months' session.

Rudolph Spreckels, who financed the prosecution, and Detective John Helms alternated as witnesses, and it was evident that a crisis in the case had been reached. Interest was sustained until a late hour in the afternoon, when Assistant District Attorney Heney, ignoring two restraining orders issued by a court of similar jurisdiction, announced that he would ask Judge Lawlor's permission to open sealed packages seized in the raid upon the offices of William M. Abbott, general counsel for the United Railroads, and alleged to contain documents stolen from the office of William J. Burns, head of the prosecution's corps of special detectives.

Arguments on this issue were deferred until Monday. One of the lines of probable inquiry was indicated when Helms, after testifying that he knew Luther Brown, former partner of Earl Rogers, said:

"Abbott and Brown met me at the steamer landing on the day I left the city after quitting the service of the United Railroads. Abbott asked me what I knew about the dynamiting."

"What dynamiting?" inquired Heney. "The dynamiting of Gallagher's home," said Helms, referring to the blowing up in Oakland last spring of the home of former Supervisor James L. Gallagher.

Helms declared several offers had been made to prevent his appearance as a witness in the Calhoun trial. Since his arrival in this city, he declared, a plot had been laid in the office of W. H. Metzger, a prominent attorney, to trap him in a conversation over the telephone. The testimony followed an inquiry by Mr. Rogers who asked the witness if he knew that a graphophone had been attached to the telephone while he was speaking from the other end of the line.

A dramatic outburst occurred when Helms charged that Abbott had once expressed to him a wish that "some one would shoot Heney," and that Stanley Moore had congratulated him on his performance in following Burns. Stanley Moore arose in his place at the counsel table and, in a voice trembling with anger, told Helms he was "lying like a dog" and perjuring himself.

Helms leaped to his feet and defied the attorney to make good his charge.

### DEFENSE OF MARTIN MADDEN

Outlined by Lawyers in Trial of Labor Leader.

Chicago, May 22.—The defense in the trial of Martin B. ("Skinny") Madden, president of the Associated Building Trades of Chicago, and his associates, F. A. Pouchot and M. J. Boyle, who are charged with betraying union labor by accepting graft money in settling "fake" strikes, put in the main part of their case.

In building up a defense, Madden's lawyers took these lines:

Broadly, that union labor was being prosecuted by the Chicago Employers' association.

Specifically, that the strikes concerning which the state introduced payment-of-money testimony, were legitimate strikes.

That \$1,000 was not received by Madden or any of his representatives in settlement of the strike in the Joseph Kilka plant.

Motions to take the case from the jury and to force the state to indicate what particular counts of the indictment would be put before the jury were overruled by Judge McSurely.

### JONES FOUND NOT GUILTY

"Avenger Bill" Declared Innocent of Murder Charge.

Washington, May 22.—William Jones, known as "Avenger Bill" Jones because of his attempt to shoot Guitau, assassin of President Garfield, when the former was being removed from the courthouse to the jail here, was declared not guilty by a jury here of the murder of John O. McPherson who was killed by Jones last October. Self-defense was the plea of the defense.

## 35c Ribbons 25c

Fine Silk Morie

5 1/8 inches wide

All good colors and white

For sashes and Hair Ribbons

Very heavy and stiff

See them in our east window

Buy a good supply

They would be cheap at 35c the yard

*H. H. Michael Co.*

### PRESBYTERIANS AT DENVER

Discuss Sunday Amusements and Abolition of Divorce.

Denver, May 22.—Sunday amusements, the abolition of divorce and the urgency of religious education were discussed by the general assembly of the Presbyterian church.

Two other subjects which threaten to cause much parliamentary conflict, the report of the executive commission and the report of the committee on administrative agencies, were brought before the assembly by Dr. J. D. Moffatt, president of the Washington and Jefferson college of Pittsburgh, and by former Moderator Dr. B. P. Fullerton of St. Louis.

Dr. Moffatt predicted that this session would see the adoption of a plan whereby the eight administrative boards would, to a large degree, be consolidated. The committee on administrative agencies, of which he is chairman, has recommended that each board seek legal advice as to its possible powers.

It has been a subject of comment in the church that the administrative authority has been too much scattered and it has been the work of the committee on administrative agencies to formulate a plan for consolidation. The subject was made a special order for Monday afternoon.

The selection of a vice moderator was not announced. It is believed Judge Charles S. Holt of Chicago will receive the appointment.

The afternoon's session was turned over to a celebration of Calvin's quad-centennial.

### BUYS THE PIONEER PRESS

St. Paul Dispatch Obtains Control of Property.

St. Paul, May 22.—The St. Paul Dispatch has bought the Pioneer Press. Official announcement has been made and the property taken over by the new owners, George Thompson and Charles H. Grasty.

The evening edition of the Pioneer Press, which has been published for some nine months, will be at once discontinued. The morning and Sunday editions will be published as at present, but from the Dispatch building.

Included in the Pioneer Press sale are the newspaper proper, the building at Fourth and Robert streets, the manufacturing department on Third street and the Northwestern News paper union, which furnishes a ready print service for rural papers.

Walter Driscoll is now managing the job business and will probably take it over by purchase. The building and the ready print service are also likely to be disposed of, leaving the new owners with only the news paper property.

### International Horse Show.

London, May 22.—The international horse show, which has become an annual event of the London season, is to be held this year from June 5 to 15. Interest has become worldwide and entries have come from countries as wide apart as Norway and Argentina. America, as usual, is to the front with a large number of competitors.

### Found Guilty of Murder.

Clayton, Ala., May 22.—Mrs. Hattie Pope has been found guilty of the murder of her mother, Mrs. Mary King, at Montevallo on March 4 and was sentenced to ninety-nine years in the penitentiary.

### Five Negroes Killed.

Olive Branch, Miss., May 22.—As the result of a cave-in in a gravel pit, five negroes were killed here.

## CURTAIN RUNG DOWN ON STRIKE IN PARIS

General Federation of Labor Admits Defeat.

Paris, May 22.—The curtain was rung down upon the general strike amid recriminations by the leaders who tried to throw the responsibility for the failure upon each other and the defeated postal employees. The end came when a few hundred laborers voted to resume work. The general federation of labor then threw up the sponge and issued a manifesto in which they seek to cover up their retreat, explaining that the postal employees were over confident of the success of their second strike, "which everything shows was prepared and instigated by the government, which was desirous of an opportunity for avenging itself against the leaders of the first strike."

The statement adds that strikes of excavators and other workmen having sufficiently demonstrated the solidarity of the proletariat and the postmen there was no reason to call out other unions, notably the electricians, who had expressed their readiness to enter the fight.

With the surrender of the general federation of labor the strike of the postmen, which already had practicality ended, collapsed entirely and the few men who were still on strike decided to return to their offices and try to secure their old positions. The postmen and a few other unions are now raising a fund from which to give the dismissed postal employees \$30 a month until they can obtain other employment.

### THE HIGHEST TIDE IN YEARS

Caused by a Heavy Northeast Storm at Atlantic City.

Atlantic City, N. J., May 22.—Heavy northeast storm has driven the highest tide in years on the meadows and on the meadow and inlet section of the city. Trolley travel is suspended above Baltic avenue in the inlet section and many small pleasure craft at the inlet have been torn from their moorings by the gale and driven ashore. The cars running to Ocean City have been forced to stop at Somers Point because of the flood rising over the approaches to the long bridge over the Great Egg harbor bay.

### Kills Brother in Duel.

Pensacola, Fla., May 22.—Joseph Bray killed Monk Bray, his brother, in a duel. They had quarrelled over the dividing line of some land and when they met both were armed. Monk Bray, it is said, cursed his brother and then fired at him. Joseph Bray then levelled his shotgun and with the statement, "I hate to do it," fired.

### Welsh Defeats Goodman.

New York, May 22.—Freddie Welsh, English lightweight, easily won a fast ten-round bout with Jack Goodman of this city. In each of the ten rounds the Englishman was so far ahead of the local man that there was no question of his complete superiority.

Orne Sells sewing machines, washing machines, rugs (all sizes), clocks and wringers for cash or on easy payments at the Singer store. 252tf

A rural telephone is being installed between Pine River and Emily and it is expected that it will be in operation by July 1st. The poles have been strung and active work will be commenced on the construction the first of the week. The line will be owned by local parties but will be used in connection with the Northwestern which will give the people of Emily a chance to communicate with the outside world.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, O.  
Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.

### AUTOMOBILE LIVERY

At one half regulation city rates, day or night. Will take parties into the country, city sight seeing, dances or parties. Telephone 256 or 134j4 or call on C. W. Hoffman, No. 310 6th S., or No. 216 5th St. N. 285tf

### Smashes All Records.

As an all-round laxative tonic and health-builder no other pills can compare with Dr. King's New Life Pills. They tone and regulate stomach, liver and kidneys, purify the blood, strengthen the nerves, cure constipation, dyspepsia, biliousness, jaundice, headache, chills and malaria. Try them. 25c at H. P. Dunn's. t s w l

Penn—I don't see how you can call Mr. Meter a genius. His poems certainly do not show it. Brush—No, but the fact that he sells them does.

### DR. BRUNS

The optician who is giving general satisfaction in the fitting of glasses, will be at the Ransford Hotel May 26 and 27. If your head aches, glasses you have don't fit, or your eyes water or burn, don't fail to see him. Eyes examined free.

### Won't Slight a Good Friend

"If ever I need a cough medicine again I know what to get," declares Mrs. A. L. Alley, of Beals, Me., "for, after using ten bottles of Dr. King's New Discovery, and seeing its excellent results in my own family and others, I am convinced it is the best medicine made for coughs, cold and lung trouble." Every one who tries it feels just that way. Relief is felt at once and its quick cure surprises you. For bronchitis, asthma, hemorrhage, croup, LaGrippe, sore throat, pain in chest or lungs its supreme. 50c and \$1.00. Trial bottle free. Guaranteed by H. P. Dunn. t s w l

## ERICK JOHNSON DROPPED DEAD

### Platt Lake Farmer Expired While Driving Cows Home Last Thursday Night

## NOT FOUND UNTIL NEXT DAY

### Mrs. Luse, Mother of Mrs. Geo. Abbott Died Suddnly Friday Evening

Word was received here this morning of the sudden death of Erick Johnson near his home in the town of Platte Lake Thursday night. Mr. Johnson went out to find his cows and drive them home and was seen about 9 o'clock that night by John Jernquist, a neighbor, who lives about a mile and a quarter from the Johnson home.

He was then headed for home with the cattle and was having some trouble driving them. He failed to return home that night and the next morning his son, Henry, set out to search for him at the neighbors', thinking he might have stayed with some of them or been taken sick. He found his father's body not far from home and he had evidently fallen dead of heart failure. The son came to town and notified his brothers, Frank and Emil Johnson, who are employed in the N. P. shops in this city. They also notified Thos. W. Gibson, coroner of Crow Wing county, who drove out this morning to view the body. It is not expected that an inquest will be deemed necessary. A coffin was taken out today and the funeral and interment will take place at Platte Lake. The deceased was well along in years and left a wife and three grown sons.

Mrs. Elizabeth Luse, mother of Mrs. Geo. Abbott, died very suddenly Friday night of heart failure. She had been suffering with heart trouble for several years and for the last three weeks had been unable to come down stairs for her meals, but was up and around the house, she seemed better, however Friday and came down to supper, spending much time sitting in the yard with members of the family. She was taken with an attack shortly after 10 o'clock Friday evening and expired before 11. She leaves two daughters, Mrs. Abbott, of this city and Mrs. Lizzie Darling, of Chicago. The funeral will be held Sunday afternoon at 2 o'clock at the Abbott residence, 1001 Oak street, with interment in Evergreen cemetery.

Elizabeth Edrick was born in Richland, N. Y., July 4, 1845, and was married September 11, 1852, to Loomis S. Luse, who died in Minneapolis, July, 1887. To them were born three daughters, two of whom survive, Mrs. Rosie A. Abbott, of Brainerd, and Mrs. Lizzie Darling, of Chicago.

## WOULD HAVE SCHOOL HERE

Gus. H. Beaulieu Believes that There Should be an Indian School at Old Crow Wing.

Gus. H. Beaulieu, of White Earth, one of the leading men of extraction in Minnesota, was in Brainerd last night on business. He is an old time Crow Wing County resident, having been born at "old" Crow Wing, at the Indian agency there in 1853. He has recently purchased the old farm where he was born and will establish a summer home there and expects to make it one of the most handsome places in the county. Mr. Beaulieu has as one of his aspirations, the establishing of an Indian school in Crow Wing county. There are he says, tribal funds for the erection of schools and he believes the Indians would favor the erection of a school at Crow Wing as most of those on White Earth reservation were originally from Crow Wing and adjoining counties.

## A GOOD TALKER

Rev. David Morgan Addressed a Small Audience at Elks' Hall on Friday Evening

The lodge room of Elks' hall was a little over half filled last night to listen to Dr. Morgan speak on socialism. Dr. Morgan is a fine speaker and can draw very vivid word pictures and if one can agree with his premises, namely, that the poor are poor because the rich are rich, and that because the rich spend extravagantly the poor man is compelled to give four dollars of every five he earns, to support them, then his address is convincing. But if his premises are false, as many believe them to be, then his logic is faulty. He will speak again tonight at the same place on the same subject.

## Lecture was well Enjoyed

An appreciative audience was on hand last night at the Swedish Methodist Episcopal church to listen to the lecture by Rev. C. F. Edwards, of St. Paul, on "Going to See the Elephant." The lecturer is an eloquent speaker and gave a lecture that was replete with wit, humor, satire, wisdom and repartee, and proved to be one of the most enjoyable lectures given in this city for a long time.

The lecturer introduced his theme by showing the spirit of curiosity that was to be found in most people to see and know things, branching off into the realm of invention, science, education and religion. He told his audience that he had but 'little time for folks who were always whining about the good old times of the past and plead that the day of golden opportunity was forever gone. It was a lecture brimming over with rich optimism.

Rev. Chas. Fox Davis followed Rev. Edwards and spoke at length on "The Man with an Elephant on His Hands," and his address made a fitting climax to that of the previous gentleman. Mr. Davis told the audience that if it were not possible to go with Roosevelt to Africa to hunt elephants, the next best thing was to see and hear the elephant that Rev. Edwards was placing on exhibition. He then traced the interest that the average boy takes in waiting for the circus to arrive and how he lingers around the animal tent to feed the big beasts with peanuts and popcorn, until he is older grown and gets an over ambitious spirit and enters into life's struggle and takes hold of things that are too large for him to handle and finds that he has an elephant on his hands. Mr. Davis sang a couple of solos.

## Lived 152 Years.

Wm. Parr—England's oldest man—married the third time at 120, worked in the fields till 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurlock, Ky., shows how to remain young. "I feel just like a 16-year-boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly rundown or old people. Try them. 50c at H. P. Dunn. ttwsl

## Notice to Clean Up

Owing to the late spring very little cleaning has been done and the Board of Health asks all citizens and business men to get busy and clean up at once as the sanitary inspector will inspect all alley ways, back yards, etc., within a few days. Those not having complied with the law at that time, will have to do so without further notice.

## WILL CROSS TWO BREEDS OF PIKE

S. F. Fullerton Has Gone to Rainy River to Secure Spawn of Canadian Pike

## IT WILL IMPROVE THE FISH

Mr. Fullerton Deplores Lack of More Fish Hatcheries in State of Minnesota

Duluth Herald:—Sam F. Fullerton, state fish commissioner, is in Duluth today on his way to the Rainy river, where he will attempt to collect for the state fish hatchery at St. Paul, a quantity of the eggs of the yellow-bellied wall-eyed pike. If Mr. Fullerton is successful in his efforts in collecting the eggs of the Canadian pike, they will be mixed with the fry already in the Minnesota lake.

The fish commissioner states that the mixing of the Canadian species with the species of pike at the present time in the Minnesota waters, will be a good thing for the fish, as it will improve the species.

Mr. Fullerton has been very busy this spring collecting eggs from Gull lake, Whitefish lake and Pine lake, all in the vicinity of Brainerd. Other eggs have been collected from Battle Lake, in Ottertail county; Big Pelican lake, in Becker county, and the St. Louis river in at Fond du Lac. Over 160,000,000 eggs have been collected by the force of the state fish hatchery, and these are at the present time hatching in the St. Paul hatchery.

Many of the fry will be placed in the lakes and rivers of the northern part of the state. All of the eggs collected in the lakes and rivers of this state are of the white bellied pike. The trip that Mr. Fullerton on at the present time, will take him to international waters. The spot that the commissioner will visit, is where the Rainy river enters the Lake of the Woods.

At this point nets have been set out, and it is hoped that a large number of the Canadian pike will have been caught by the time Mr. Fullerton reaches the spot.

At the present time the lakes of Minnesota are fairly well stocked with fish, according to Mr. Fullerton. He deplores the fact that this state has not more hatcheries. There are only two in the state at the present time, the one at St. Paul, and the one at Glenwood. There is an appropriation for a hatchery between Deerwood and Glenwood. This hatchery it is hoped will be built in the near future.

The state fish commissioner points out that Wisconsin, with one-twentieth of the water area that Minnesota possesses, has eight hatcheries. Michigan, with not nearly the number of inland lakes and streams that are possessed by this state, has nine hatcheries.

"If we had more hatcheries in this state," Mr. Fullerton says, "the fishing would be much better, as the fish department would be enabled to stock the lakes with more fish than it is able to do at the present time, with its limited facilities."

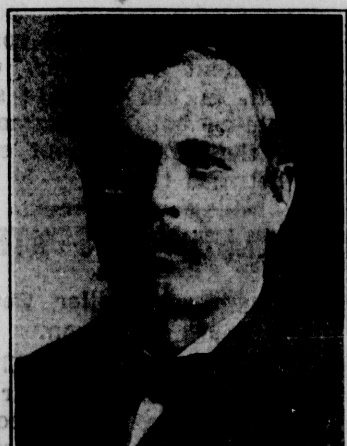

Trays for the collection of the eggs at the Rainey river have been shipped there and it is hoped to secure a fine collection. Mr. Fullerton states that a car of fish will soon be on its way to the northern part of the state. These fish will be placed in the waters of this section of the state.

## Week End Excursions

By Rev. David Morgan, of St. Paul. Ethics of Socialism and Christianity Compared

Mr. Morgan is recognized as a peerless orator, one of the foremost and brainiest thinkers in the state, a logical reasoner, clear and concise in his convictions, and one who carries convictions to his hearers. Socialism is applied Christianity, the Golden Rule applied to everyday life.

Socialism is one of the worlds big questions. If you wish to know the truth about Socialism—what it is—hear Mr. Morgan at Elk's hall tonight.

Members of the various church organizations are especially invited to attend. Admission 15 cents.

## DOES NOT AFFECT BRAINERD

New Time Card on the Northern Pacific Does Not Affect Local Passenger Service

A new general time card on the Northern Pacific railway goes into effect tomorrow. It does not, however, affect local traffic in the least. There is no change in time of the passenger trains running into or through Brainerd. The trains on the main line run on practically the same time as heretofore, except that the local passenger heretofore known as Nos. 5 and 6, is designated as Nos. 17 and 18, while the numbers 5 and 6 are given to the new coast train.

There is no change whatever on the second district of the Lake Superior division, as regards passenger trains. The run of the Minnesota & International crew on to Little Falls with their night train is scheduled as Nos. 92 and 93 as a passenger train both ways.

## EXAMINER OF TITLES

The Judges of The District Bench Appoint One Examiner for Each County of District

The three judges of the fifteenth district, McClenahan of Brainerd, Wright of Park Rapids and Stanton of Bemidji, have appointed the examiners of titles for each county in this district. The examiners are: Daniel DeLury of Walker, Cass County; F. S. Arnold of Bemidji, Beltrami county; Edward T. Teitsworth of Bagley, Clearwater county; A. L. Thwing of Grand Rapids, Itasca; Frank Palmer of International Falls, Koochiching; John C. Heshian of Aitkin, Aitkin; W. G. Rhea of Park Rapids, Hubbard, and A. D. Polk of Brainerd, Crow Wing county.

## Notice

EDITOR DISPATCH:

A dog was killed in East Brainerd May 20, 1909, one block north of Kindred street. A party says I killed the dog unjustly, which I deny, as the dog ran out and grabbed me by the knee, and I was forced to kill the animal to save myself from injury and hydrophobia, and I hope my friend will not think me guilty of the charge.

JOHN LIEN.

## LOCAL BASE BALL

Tomorrow at Aitkin.

The city team was out last night to its last and final practice before tomorrow's with Aitkin.

The line-up for the city base ball team for tomorrow's game has been announced. While some of the men picked will not play in their regular positions, they will present a formidable appearance when lined up on the diamond, which Aitkin will probably be aware of by tomorrow night. The team will go to Aitkin on the early morning train, accompanied by Frank Little, assistant manager. Manager Petersen will go up on the afternoon train. There will be large crowd of Brainerd rooters go up according to reports.

The line-up is as follows: Quinn Parker, catcher; Art Tower, pitcher; Jacobs, first base; F. C. Place, second base; Tommy Templeton, (Capt.) third base; Joe Bush, short stop; "Tug" Wilson, left field; Connie Ousdahl, center field, A. Sundberg, right field and Ray Barron, sub.

## OVERTAXED

Hundreds of Brainerd Readers Know What it Means

The kidneys are overtaxed; Have too much to do. They tell about it in many aches and pains—Backache, sideache, headache, Early symptoms of kidney ills. Urinary troubles, diabetes, Bright's disease follow.

A Brainerd citizen tells here a certain cure.

Chas. Ellison, living at 512 S. Quince St., Brainerd, Minn., says: "My kidneys were in a disordered condition for some years and seemed to be gradually growing worse. About a year ago I was seized with a terrible pain in the small of my back and on this account was forced to stop work. All the medicine I took helped me, so that I was ble to go out in a few weeks but the trouble came back at times and I would suffer severely. About eight months ago I was advised to try Doan's Kidney Pills and procured a supply from H. P. Dunn's drug store. The use of a few boxes of this excellent remedy benefited me in every way and I can again work with ease without disagreeable symptoms of my old complaint. I am confident that Doan's Kidney Pills will act up to their representations in other cases of kidney complaint if taken according to directions."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## TEST OF FOOD FISH.

Danube Sturgeon to Be Imported For Home Waters.

### NATIVE VARIETY NEARLY GONE

United States Fish Commission Hopes to Stock American Rivers With Great Fish From Roumania—Minister Knowles Induced Roumanian Government to Aid the Undertaking.

Commissioner Bowers of the United States fish commission at Washington has announced that there is a strong probability that the famous Danube sturgeon will be successfully introduced in the waters of the United States.

Until a few years ago the rivers and bays of the middle Atlantic states contained great quantities of sturgeon, but because of inadequate laws for their protection and the ruthless manner of fishing for them that valuable fish has been practically exterminated.

The fish commission has made diligent efforts to save the sturgeon and has had its experts on the Delaware, where the sturgeon was once most abundant and other waters where they were formerly found in an effort to catch a male and a female in order that the eggs might be taken and hatched. Notwithstanding their earnest efforts and the expenditure of not less than \$1,000 a year for three years for that purpose they were unsuccessful.

The announcement of Commissioner Bowers that it is probable American waters may again teem with sturgeon has been made possible by the co-operation of Horace G. Knowles, until recently the American minister to Roumania, Serbia and Bulgaria, now accredited to Nicaragua.

The pleasant relations Minister Knowles enjoyed with the Roumanian government enabled him before leaving Roumania to arrange with the officials of that country to send to the United States a large quantity of Danube sturgeon fry; also several large cans of the fry of sterlet, another very valuable Danube fish, which is considered the most delicious of all European fish.

Minister Knowles says he is interested in the introduction of these two important food fish to American waters because his investigations convince him they will thrive in the United States. The sterlet, he says, is very prolific and hardy and will, if properly protected until well started, take the place of not only shad, which is getting scarcer every year, but the other fish that are growing less plentiful.

These two Danube fish are particularly valuable because they are not a season fish like the shad, but run in the waters of their habitat throughout the year. The Danube sturgeon grows to enormous size and weight, and 600 to 800 pound fish are frequently caught. An 800 pound fish will give about 150 pounds of caviare, and fresh caviare sells in New York and the European cities for from \$7 to \$10 a pound.

The caviare from the Danube sturgeon is considered the finest in the world. Both the sturgeon and the sterlet are most abundant in the Roumanian part of the Danube, and in eastern and southeastern Roumania they are the principal food of the people.

Through the arrangements made by Minister Knowles there will be shipped from Roumania a large number of twenty gallon cans containing millions of young sturgeon and sterlet. Without any expense to the United States these cans of fish will be delivered at Bremen or Hamburg to a representative of the United States fish commission, who will take charge of them and bring them on one of the fast express steamers to New York. The young fish will then be sent to the nearest hatchery and there will be cared for until they have recovered from their 7,000 mile voyage and are in condition to be turned into the Hudson, Delaware, Susquehanna and Potomac rivers.

The fish commission is deeply interested in this experiment, and it is the opinion of Commissioner Bowers that the chances are decidedly in favor of its being successful.

Minister Knowles says: "There are few matters connected with our country's food supply more important than that of our fish production. When it is considered that by reason of the increase of our population the demand is increased and that with the gradual and constant falling off of the catch of all kinds of fish the supply is lessened, it is one of the serious problems that confront our country. A plentiful supply of fish during all seasons of the year is one of the greatest blessings our or any country can have."

"Meats cannot sell for high prices when fish is plentiful and cheap. The best and surest protection the people can have against the meat trust is to have a certain and abundant supply of fish. It is a great economical question, and it is no wonder our government is giving such serious attention to it. "So many and vast are our waters—rivers, lakes and bays—that, once stocked with suitable fish and then properly protected by law against the exterminating methods of the ruthless and improvident fishermen, the United States should have a larger and better fish supply per caput than any country in the world. For the good of my country I am deeply interested in this matter and shall be very happy if I can do anything to better present conditions."

## CHARGE AGAINST CASTRO

Dismissed by a Judge of the Criminal Court at Caracas.

Caracas, May 22.—A decision was rendered by a judge of the criminal court dismissing the charge against former President Castro of complicity in a plot to assassinate Juan Vicente Gomez last December. Senor Gomez at the time was acting president of the republic, having been left at the head of the government by Castro when he sailed for Europe on Nov. 23.

The decision was rendered on a petition of the attorney general, who took as the grounds for the plea the recent amnesty decree of President Gomez, which gave freedom to all persons taken prisoner at the time of the overthrow of the Castro administration last December, when everybody under arrest charged with complicity in the attempted assassination was liberated.

## CONCLUDES ITS DELIBERATIONS

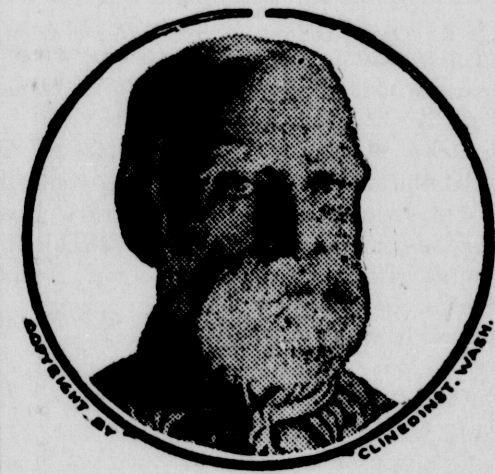

Arbitration Conference at Lake Mohonk Is Ended.

### IMPOSING ARRAY OF SPEAKERS

British Ambassador Bryce, Congressman Bartholdt of Missouri and Alfred Mosely of London Among Those Who Delivered Addresses—English Diplomat Pleads for Arbitration of Disputes Between Nations—Bartholdt Says Taft Could End Wars.

Mohonk Lake, N. Y., May 22.—With an imposing array of speakers, the fifteenth annual meeting of the Lake Mohonk conference on international arbitration concluded its deliberations. The speakers included James Bryce, British ambassador; Alfred Mosely of London, Representative Richard Bartholdt of Missouri, Edward J. Wheeler, editor of Current Literature; Frank Chapin Bray, editor of the Chautauquan, and Dr. Richard Watson Gilder, editor of the Century.

Ambassador Bryce in his address declared that newspapers had often been blamed for the ill-feeling between nations that ultimately led to war, and he said that it was a ques-

AMBASSADOR BRYCE.

tion whether they were to blame, as newspapers merely are what the people make them and reflect the wishes of the people. He pleaded for arbitration of disputes between nations. Congressman Bartholdt suggested that President Taft could end all wars. He said:

"If the president of the United States were to say to King Edward and Emperor William 'let us keep the peace, and in case of any trouble between either two of our three countries, let us not draw the sword until we have had an investigation by an impartial third party, be it power, commission or court.' If I say, President Taft were to make a formal proposal of this nature and those two great monarchs were to grasp the outstretched hand, what would be the result? It would signify the end of war."

Alfred Mosely's speech was less conservative than the diplomatic utterances of those who preceded him. He threw aside his prepared speech and plunged into the present relations between Great Britain and Germany. He said:

"No man who has any feeling of responsibility can view the possibility of war without a shudder. One regrets even, in the delicate state of public opinion both in Germany and England, the very talk of signs of trouble between them."

### EMBEZZLER IS SENTENCED

Minneapolis Bank Teller Gets Five Years in Prison.

Minneapolis, May 22.—Ellis W. Niles, former receiving teller of the First National bank and confessed embezzler of \$20,000, was sentenced to serve five years in the state penitentiary at Stillwater. Good behavior will reduce the time to 3 years, 7 months and 18 days. He will be committed today.

### Mrs. Taft Recovering.

Washington, May 22.—Although Mrs. Taft is making satisfactory progress in her recovery from the slight breakdown which she suffered several days ago, and which prevented her from accompanying the president on his Southern trip, she probably will be obliged to give up social duties for some time.

## PLAN OF NEW AIRSHIP

Washington Man Building Unique Type of Machine.

### HAS GAS BAGS AND PLANES.

G. W. Byron's Aerial Craft Is Combination of Aerodrome and Dirigible Balloon—Inventor Predicts It Will Be Flier of Future and Could Destroy Big Fleet.

George West Byron of Washington is building an airship which will be a combination of an aerodrome and dirigible balloon and which will be totally different from anything heretofore constructed either in the United States or in Europe. Mr. Byron has obtained patents on his aerial craft and believes it will revolutionize navigation of the air.

This latest ship of the clouds consists of two superimposed planes, each forty feet wide and seventy-five feet long, constructed of aluminum tubing, strengthened with manganese bronze and vandum steel, the strongest possible construction. The extraordinary feature of these planes is that the upper one consists of five flat connected gas bags inclosed in a rigid aluminum envelope and the lower plane of seven similar gas bags, also inclosed in a rigid flat envelope. The planes are seven feet apart. This construction gives an air supporting surface similar to the planes in the Wright machine and with the gas bags has the additional buoyancy of a dirigible or a free balloon. Suspended from the lower plane by a strong steel wire network is the car of the airship. This is slightly smaller in area than one of the planes.

In the car is located the engine that will drive the ship. A motor of twenty-five horsepower will be used, which will develop a speed of more than forty miles an hour. A bicycle framework, with four wheels, is attached to the bottom of the car. The ship will rest on this when it is on the ground. One of the ingenious features of this framework is that the wheels fold up automatically when the vessel is in the air.

The propellers—two in front and two behind—are placed at the least point of resistance in the car, the engine being located amidships. The cabin will act as a ballast to preserve the equilibrium, so that the airship will be stable even in a strong wind. The whole machine will weigh when completed only 800 pounds, and it will have a lifting capacity of nearly 1,000 pounds more than its weight, the inventor claims.

Mr. Byron believes this type of airship will be the aerial craft of the future, combining as it does the advantages of a true heavier than air machine and the buoyancy and lifting capacity of a dirigible balloon. With this type accidents such as cost the life of Lieutenant Selfridge in the wreck of the Wright machine last summer at Fort Myer would be impossible.

The inventor in speaking of his machine said:

"An airship of this type, carrying 900 pounds of tubing filled with high explosives and a crew of four men, could destroy the largest battleship fleet in a few hours. It could do it with perfect safety, for the ship would be practically indestructible, even if it were hit many times with shells fired from forts or from the battleships. This type of airship is bound to be the one in universal use in a few years."

It is stated that several Washington capitalists have investigated Byron's plans and have advanced considerable sums for the construction of the airship.

Mr. Byron is unable to say just when the craft will be completed, but when it is finished trials probably will be held near Washington, and if it comes up to the expectations of those interested the United States government will be given the opportunity of purchasing it and the patents under which it is constructed.—Washington Post.

### GRAIN AND PROVISION PRICES

**Minneapolis Wheat.**  
Minneapolis, May 21.—Wheat—May, \$1.31½; July, \$1.29½@1.29¾; Sept., \$1.10½. On track—No. 1 hard, \$1.34; No. 1 Northern, \$1.33; No. 2 Northern, \$1.31; No. 3 Northern, \$1.29@1.30.

**St. Paul Union Stock Yards.**  
St. Paul, May 21.—Cattle—Good to choice steers, \$5.00@6.50; fair to good, \$4.50@5.00; good to choice cows and heifers, \$3.00@4.00; veals, \$5.00@5.75. Hogs—\$6.95@7.10. Sheep—Wethers, \$5.50@6.50; yearlings, \$6.25@7.00; lambs, \$7.50@8.00.

**Duluth Wheat and Flax.**  
Duluth, May 21.—Wheat—To arrive and on track—No. 1 hard, \$1.33½; No. 1 Northern, \$1.31½; No. 2 Northern, \$1.29½; May, \$1.30; July, \$1.29½; Sept., \$1.11½. Flax—To arrive and on track, \$1.77½; May, \$1.76½; July, \$1.75; Sept., \$1.52; Oct., \$1.46½.

**Chicago Grain and Provisions.**  
Chicago, May 21.—Wheat—May, \$1.31½; July, \$1.16½; Sept., \$1.08½@1.08¾. Corn—May, 72½¢; July, 69@69½¢; Sept., 67½¢; Dec., 58¢. Oats—May, 60¢; July, 53½¢; Sept., 44½¢@45¢; Dec., 45½¢. Pork—May, \$18.30; July, \$18.35; Sept., \$18.27½. Butter—Creameries, 21@25¢; dairies, 18@23¢. Eggs—20@21½¢. Poultry—Turkeys, 15¢; chickens, 15½¢; springs, 15¢.

**Costly Fire in Minneapolis.**  
Minneapolis, May 22.—Water and smoke resulting from a small blaze damaged the stock and building of the New England Furniture and Carpet company, between Fifth and Sixth streets on First avenue south, approximately from \$85,000 to \$110,000.

**Negro Threatened by Mob.**  
Muskogee, Okla., May 22.—Fearing Joe Williams, a negro who attacked Mrs. Cole at Sharp, Okla., would be lynched, Deputy Sheriff Wagoner brought him to Muskogee and placed him in the federal jail. After his capture, Williams was threatened by a mob and the sheriff's posse had much difficulty in getting him away safely.

**Factory Burned.**  
Montreal, May 22.—Fire which started in the premises of James Robertson company, saw and lead works, on William street, practically ruined the extensive factory. The loss is estimated at \$100,000.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unimpeachable testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native medicinal roots. The processes employed in their manufacture were originating with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

**Manufacturers of GAS, GASOLINE and STEAM ENGINES, PULLEYS, HANGERS, SHAFING, CLUTCHES and all POWER TRANSMISSION SUPPLIES, direct to the consumer. Largest Machine Shop in the West MINNEAPOLIS STEEL AND MACHINERY CO. MINNEAPOLIS, MINN.**

## DR. L. H. BRUNS OPTOMETRIST

Will be in Brainerd, at the Ransford Hotel May. 26 and 27

Spectacles and Eye Glasses Fitted Correctly. Headache and other Nervous Disorders Cured with Glasses. Eyes Examined Free

## Wonderful Work of a Great Surgeon

AN INSTITUTE OF PLASTIC SURGERY WHERE BIRTHMARKS AND ALL FACIAL DEFECTS, DISFIGUREMENTS AND BLEMISHES ARE REMOVED WITHOUT MEDICINE, KNIFE OR PAIN, AND A NATURALNESS GIVEN THE FACE—WITH A LOVELY COMPLEXION.

### IMPROVING UPON MOTHER NATURE

For patients who can go to the offices, the chief surgeon of the Earle Institute, Minneapolis, Minnesota, removes Humps from Noses, builds up Flat Noses, straightens Crooked Noses, shortens Long Noses, lengthens Short Noses, reduces Wide, Ugly Noses, corrects Deformed Noses, sets back Projecting Ears, releases the lobes of Attached Ears, builds up Deformed Ears, corrects Drooping Eyelids, removes Bags from under the Eyes, arches Straight Eyebrows, straightens Crooked Eyebrows, Remedies Hair-lip, Removes Warts, Moles, Birthmarks, fills out Sunken Cheeks, removes Small Pox Pits, takes out Frown Lines, removes Wrinkles, and by his deft touch transforms the whole contour of the homely human face into one of delightful beauty. To show you the widespread and universal demand for this work and to give you some idea of the excellent work done and its high degree of satisfaction, of the 9,000 or over patients treated at this institute last year, men, women and children from all over the western, middle west, northwest and northern states, patients from every city, town or village, there was not a dissatisfied patient. All expressed their delight, and well they might. This institute accentuates the exceptional skill in its work by positively guaranteeing to refund the money in any case that is not entirely satisfactory, and will do so cheerfully. If you have a birthmark or any disfigurement, irregularity or blemish of the nose or any part of the face, then do not hesitate to write for this free illustrated booklet, describe as nearly as you can the wrong you wish righted, and on receiving a favorable reply, arrange to go to Minneapolis and see this noted surgeon. Address, Earle Institute, Minneapolis, Minn.
